- TV Reception
 - Use a Digital TV Antenna to receive local channels
 - Use a satellite service to receive:
 - DirecTV
 - Dish
 - NOTE: We do NOT have cable service in our area at this time.

- Landscaping
 - Edgewood Soil & Water Conservation District (ESWCD). Web - WWW.ESWCD.ORG, Telephone - 832-1111. Location: 2506 Rt. 66, West Moriarty. What can ESWCD do for You? You are paying for their services as part of your property taxes. Their function is to assist you in the planning and construction of terracing on your property to support water and soil conservation. In this, they will analyze your property and recommend appropriate terracing, tree and vegetation planting and mulch distribution to prevent soil erosion and maximize the use of rainwater. They may pay for part of the material and labor costs. In addition, they are a great source of native grass seed mixes.

- SMR Road Maintenance – Bernalillo County is responsible for maintaining SMR roads (which are county roads).

- Yard Maintenance
 - If you need someone to mow your tall weeds/grass, call Dick Porter – 281-1909. He has done a lot of work for folks in our neighborhood and he is a great guy.

- Snow Removal
 - I-40, Highway 217 and Rt. 66, the State and County remove snow within 24 hours.
 - Sandia Mountain Ranch Roads – The County plows our roads usually within 24 hours because we are on a school bus route. It may not be plowed for 48 hours if the snow is 24” deep or more because it takes them longer to plow the main thoroughfares.
